The great painter of modern Paris Édouard Manet famously shocked contemporary audiences with his provocative pictures. The first exhibition ever to explore the last years of his short life, *Manet and Modern Beauty* highlights a less familiar and more intimate side of this celebrated artist's work. Stylish portraits, luscious still lifes, delicate pastels and watercolors, vivid café and garden scenes convey Manet's elegant social world and reveal his growing fascination with fashion, flowers, and the contemporary trappings of femininity.
