Items Scheduled for Discussion & Possible Action:

9. ZA-2021-5099-ZAD, ENV-2021-5100-EAF 1785 Summitridge Dr. 90210

Project Description: Pursuant to LAMC 12.24 x.28 and 12.21. c 10(i)(3), a Zoning Administrators Determination to construct an SFR on a vacant lot that does not have a continuous paved roadway from the driveway apron to the hillside boundary.

Applicant: RF CA Real Estate jdorso@yahoo.com m

Representative: Tony Russo [Crest RE] tony@crestrealestate.com

- Vice Chair Savage related that we reviewed this project a couple of months ago. She provided a list for the applicant to address. They provided the information and she forwarded this to the committee on Friday.
- The applicant’s representative, Tony Russo, returned following the October 12, 2021 PLU meeting, along with Dan Brill, Architect from Walker Workshop. Mr. Russo reviewed details of the project noted at the PLU meeting of October 12, 2021 and responses to questions sent to him. Brief discussion was held, questions asked and answered. Mr. Russo noted that this is for a ZAD for just the continuous paved roadway (CPR), the rest is by right, and they cannot improve in front of other people’s homes. They got a support letter from neighbor to the south; the neighbor to the north supports but will not sign a letter. He discussed homes around this project including 1690 Summitridge.

- Ex Officio Member and BABCNC Board President Travis Longcore was given the gavel as Acting Chair to guide the committee from this point forward. He clarified that the request is for a ZAD because the road is not 20 feet wide going all the way down and that all the ideas of being by right are to be considered in light of the findings. After discussion, Acting Chair Longcore noted what is before the committee is can the ZA make these eight determinations to provide a variance to allow construction of this project on a street that does not have a 20 foot width.

Motion: That this project’s location, size, height, operations and other significant features are not compatible with and will adversely affect the neighborhood in which the property is being built and therefore the findings determination could not be made, as **moved** by Member Weisberg and **seconded**. Acting Chair Longcore reset where we are noting that, based on the application language that the city has for findings, a **motion** has been made that this project’s location, size, height, operations and other significant features would *not* be compatible with the surrounding neighborhood and therefore the required findings cannot be made for a determination for construction. This is the motion that has been seconded.

Move to amend the motion by adding that the required finding at 12.24.E.1 cannot be made because of the large size of the house as viewed from the homes along San Ysidro, as **moved** by Hall and **seconded**. **Motion was amended by unanimous consent** with Acting Chair Longcore abstaining.

Vote on the motion as amended that says that the finding that the project’s size, location, height, operations and features are incompatible with the surrounding neighborhood and with particular reference to the disparity in size between the homes on San Ysidro and the subject property **passed by 10 yeases, 0 noes, and 1 abstention** by Acting Chair Longcore.

10. **ZA-2021-6028-F 677 N NIMES ROAD 90077**

Project Description: Pursuant to LAMC 12.21 c.1(g), (n) 8' high fence in front yard setback, including 6' wall, vehicular gate, and 8' pedestrian gate within the public R.O.W.

Applicant: Edward Ehsan [677 Nimes Road, LLC]

Representative: Sean Nguyen [EZ Permits, LLC] sean@ezpermitsllc.com

<https://planning.lacity.org/pdiscaseinfo/search/encoded/MjQ5MTI00>

- This project came to our September meeting, which we continued with two conditions, to meet with BAA to discuss the project and to ask that this project be modified so that no structures were in the public right of way; the fence could be built on the property line; no structures to be built on public property.

[Longcore & Hall left at this time leaving 10 committee members and quorum maintained.]

- Sean Nguyen returned, accompanied by the applicant, Mr. Edward Ehsan. Mr. Nguyen noted that he has spoken with Shawn Bayliss. Vice Chair Savage noted that she, Chair Schlesinger & Member Bayliss are familiar with the project. They are proposing an 8 foot gate and fence in the city’s public right of way (PROW). There is an existing SFD being constructed for the site.

[At 7:06 P.M. it was noted that Member Loze was no longer present, leaving 9 present and quorum maintained. Member Spradlin left the meeting at 7:10 P.M. leaving 8 present.]

Motion: To postpone this for one month; moved by Member Weisberg and seconded; however, Vice Chair Savage noted that they have a hearing on January 6th and the motion was not voted on; rather, the applicants were invited to come back for the vote before the full board on December 22nd.

11. **ZA-2020-2307-ZAD, ENV-2021-5100-EAF 8560 Ridpath Drive, 90046 (Cancelled)**

12. Savage moved to adjourn to January 11th, the motion was seconded and the meeting adjourned at 7:18 P.M.
