Hello all,

Thanks for the work you've done. I would respectfully request that one factual sentence be added, preferably early in the letter:

"Our huge outreach shows The vast majority of affected residents oppose this ordinance as written."

Currently the letter implies that it's about even - "some" support and "some" oppose.

False.

Simply emphatically untrue... by a ratio of about 3:1 according to all the data available.

It's not even close.

no matter how many board members wish it were otherwise the BABCNC members duty is to represent the residents. Without bias.

William Grundfest
Affected resident
