Dear Council,

I am writing to express my strong, continuing opposition to Bel Air Glen's proposed vacation and gating project (Project: VAC-E1401394). I am currently a member of the Bel Air Ridge community and have been for the last 10 years. I was also once a member of the Bel Air Glen community for 7 years. The gating of the Bel Air Glen community would be **a colossal mistake for the members of both communities!**

You will be inundated with arguments by both communities but if you study the proposal carefully and

weigh the negatives against any positives it should become quite obvious that gating Bel Air Glen would create more problems and more dangers not only to the residents of these communities but also to all the surrounding areas as well. Please do not support or endorse this proposal now or at any time in the future!!

Very sincerely yours,

Dr. Dennis Saffro
