I have written to you all before strenuously objecting to gating the BAG community!

I walk almost daily in the area and have seen very little traffic at the corner of Angelo and Beverly Glen. I even have pictures that I took in October on a weekday at 4:30. There were no cars or one car at two different times. Also, they have brought up the fact that they are afraid to have their children playing in their front yards. If any of the members of the board have driven through their neighborhood you will see that most, if not all of these homes basically have no front yards!

Gating their community will only cause bad feelings and hardships for our community, BAR.

I hope that you can each drive through our two communities so you can see what a bad idea it is to gate an area that was never meant to gated and all the potential problems that could arise.

Thank you,

Diane Weinstein Almaden Ct. BAR
