All,

If your letter is as below, you are admitting that you have abrogated your one and only duty:

to represent the neighborhood, as in “neighborhood council.”

Period. Full stop.

But you do not care an iota about the OVERWHELMING opposition to the ungated and dark alley ways this fencing reg will create... which will invite home invasions, burglaries and camping/campfires/wildfires such as the Getty fire which threatened the existence of the neighborhood that you clearly have ignored.

And you have chosen, quite remarkably and have now admitted, in writing, to advance YOUR OWN preferences not the neighborhoods opposition.

It’s quite breath taking.

If you can’t or won’t represent the overwhelming position of the neighborhood resign.

William Grundfest  
Affected homeowner

“While the Council appreciates that the community had a number of concerns about the Wildlife-Friendly Fencing standards in the previous draft of the ordinance, removal seems to significantly lessen the potential impact of the ordinance on wildlife connectivity. BABNC would like to see the following added to the ordinance:

**For lots greater than ½ an acre, perimeter fencing must be permeable to allow wildlife to pass through. Interior fencing may be impermeable.”**
