

# LET'S TALK

As your Los Angeles County Supervisor, my number one priority is addressing the humanitarian crisis of homelessness in LA County. Just this last week, our office participated in several events that demonstrate the progress we're making.

On Saturday, I joined Sycamores to launch LA County's 988 Mobile Crisis Outreach Teams. The 988 Suicide and Crisis Lifeline has been a game changer for our system of care. As we continue to scale up outreach teams, we will ensure that individuals in a mental health crisis receive the respect, dignity, and response that is truly needed.

Two days later, we cut the ribbon for an interim housing site in Woodland Hills that will provide 100 units of housing for families transitioning out of homelessness. I'm grateful for Hope the Mission for their work at this site to ensure that we're moving people toward housing, stability, and a brighter future.

Then Wednesday, the Los Angeles County Affordable Housing Solutions Agency (LACAHS) held its first meeting and I am an inaugural board member. LACAHS will speed up and simplify LA's complex housing finance system, and preserve, protect, and produce affordable housing throughout the region.

I will continue fighting for solutions to our homelessness crisis that center the needs of our most vulnerable residents.

Los Angeles is the global capital of the creative economy, in no small part because of the entertainment industry. I fully support incentivizing keeping these jobs here at home, and expanding opportunities for diverse communities to become more equitably represented in this industry.
