RE: Agenda Item #9, Wednesday, January 28, 2026

2785 N CASIANO ROAD; 2791 N CASIANO ROAD; 2845 N CASIANO ROAD  
Milken Community School E Campus (Also commonly known as [15600 Mulholland](#))  
CPC-2025-3449-CU3-SPPC-DRB-MSP ENV-2025-3450-CE

Dear Members of the BABCNC,

I am a resident of Bel Air Park and want to begin by saying that we genuinely welcome Milken Community School as a neighbor. Our concerns are not about Milken's presence, but about ensuring that growth does not create preventable risks to students, residents, or first responders.

Casiano Road is a constrained, single access corridor. Recent fire disasters in California, including the Paradise fire, highlight the consequences of underestimating evacuation and emergency access in areas with limited routes.

The traffic analysis relies on hourly averages that obscure peak drop off surges and does not fully address cumulative impacts, overlapping school peaks, or emergency response constraints. In addition, a substantial volume of new materials and studies was uploaded by Milken shortly before the last meeting. The community needs additional time to review, evaluate, and meaningfully comment on this information to avoid overlooking critical public safety issues.

Milken should be held to the same safety standards as other private schools along the Mulholland corridor, including Mirman, Milken's existing campus, and Curtis, as well as Archer, Brentwood Schools, Campbell Hall, and Buckley.

For these reasons, I respectfully ask the BABCNC to postpone the vote on the CUP amendment until safety concerns are addressed and the community is given adequate time for informed review, participation and negotiations.

Thank you for your time and for prioritizing public safety.

Respectfully,

Bahareh Golbahar

Bel Air Park Resident
