Project Description:

A 45'-10" max height of an existing permitted SFD with pending CofO and the construction, use and maintenance of a new SB 9 unit within the existing footprint at the lowest level of the building.

Requested Entitlement:

Pursuant to LAMC 13B.5.3 of Ch.1A, Zone Variance to allow the height of a permitted SFD to 45'-10" max. height in lieu of the envelope height of 30 ft on a lot zoned in RE20-1-H-HCR required per LAMC 12.21 C.(10)(d).

7. Discussion and Possible Action on a Wildland-Urban Interface (WUI) Ordinance

Co-Chair Hall recently reported to the committee that the City of Los Angeles is required by state law to adopt a Wildland-Urban Interface (WUI) Ordinance consolidating state fire-safety regulations, and that the City was statutorily obligated to adopt the ordinance by January 1, 2026 but has not yet done so. A draft has been circulated to the City's Public Safety Committee. Because the ordinance incorporates the state minimum fire safe regulations previously discussed by the Committee and directly affects the BABCNC area — which lies within a Very High Fire Hazard Severity Zone — Co-Chair Hall recommended the item be agendized for a future Committee meeting so the Committee can weigh in before the City Council acts, noting the timeline may require expedited scheduling.

8. Discussion and Possible Action on “Missing Middle LA”
